

SAFESTEP

- Buffable emulsion floor cream
- Excellent tractional properties
- Hardwearing and durable

Product Information

DESCRIPTION:

Safestep is a water based emulsion floor cream, formulated with safety in mind. It dries quickly and offers a hardwearing durable film to the floor surface. Non-dusting, fully burnishable and offers excellent tractional properties when used as directed.

Safestep is ideal for use on coated timber, composition block (Granwood), cork, thermoplastic, flexible PVC, linoleum, sealed asphalt, magnesite. Polish or similar dressings should not be applied to floors used for any type of sporting activity.

INSTRUCTIONS:

To ensure the best possible results, all previous applications of floor polish/dressings should be removed, however, Safestep can also be applied if necessary to a clean floor surface previously treated with solvent based polish or emulsion without first having to remove the old dressing.

SHAKE CONTAINER BEFORE USE. Safestep should be diluted 50/50 with clean water. Apply an even coat of Safestep to a clean floor surface using a suitable cloth or pad. Allow to dry well (1 hour) before burnishing with a polishing brush or suitable floor maintenance pad in order to harden the polish film.

MAINTENANCE:

Safestep should be burnished regularly to remove scuff marks and to ensure a good tractional surface. Floors may be cleaned occasionally using a 1:20 dilution of Safestep to restore the appearance of any worn areas, traffic lanes, etc.

As and when necessary, Safestep can easily be removed using a 1:10 dilution of Granwax Swift in conjunction with a green or blue floor maintenance pad.

STORAGE:

Store in a cool, dry place. Protect from frost. Keep out of the reach of children.

HEALTH AND SAFETY:

For full health and safety information, please refer to the product Material Safety Data Sheet.

The information provided herein is correct to the best of our knowledge. No liability for any errors or omissions is accepted. You should satisfy yourself by appropriate trials that the product is suitable for the intended use. Granwax Products Ltd can accept no responsibility for any loss as a result of any person placing reliance on any material contained herein.
