

# SPORTSCLEAN

- Easy to use cleaner for sports hall floors
- Provides a good tractional surface with regular use

## Product Information

### DESCRIPTION:

Sportsclean is a specially formulated cleaning product designed to remove all types of sports hall soiling quickly and effectively, without the need for rinsing or neutralising. Sportsclean is ideal for use on wood, Granwood and Gransprung floors, as well as many other types of sports floors, multi-use floors, gymnasiums, etc. Regular use of Sportsclean will result in a clean surface with good tractional properties, essential for sporting purposes.

### INSTRUCTIONS:

For daily regular cleaning to remove dust, light dirt, etc., Sportsclean can be diluted approx. 1:20 with warm water and used as a spray cleaner with a mopsweeper.

For routine cleaning purposes Sportsclean can be used with a conventional mopping system or through a scrubber/dryer machine with red or blue floor maintenance pads according to the degree of soiling. Dilute Sportsclean 1:4 with warm water. Apply with flat mop, mop sweeper or heavy towelling (folded around sweeper or push broom). Soak in the solution and wring out well with suitable wringer. When mop or towel becomes soiled, they should be rinsed in clean water before re-using. The procedure can be repeated for optimum cleaning.

### STORAGE:

Store in a cool, dry place. Protect from frost. Keep out of the reach of children.

### HEALTH AND SAFETY:

For full health and safety information, please refer to the product Material Safety Data Sheet.
