

SWIFT

- Hard surface cleaner/degreaser
- Multi-purpose—large range of cleaning uses

Product Information

DESCRIPTION:

Swift is an alkaline multi-purpose hard surface cleaner and degreaser containing water soluble solvent. It is effective in hard or soft water, hot or cold solution. It is fully bio-degradable. A rust inhibitor is incorporated in the formula.

Swift can be used to clean and degrease a wide range of surfaces, including floors, walls, hard top surfaces, painted woodwork. Swift may also be used for vehicle steam cleaning, ventilation fans, plastic and vinyl upholstery, floor and wall ceramics, removal of non-metallised water based floor polish and general cleaning. Should not be used on unsealed wood or cork.

Swift can be used with a conventional mopping system to clean sealed/coated Granwood and wood floors prior to refinishing and for periodic cleaning of sports floors and areas subject to heavy use. Please see our procedure data sheets for full information.

A 'low foam' version of Swift is available for use in automatic scrubber/dryer machines. Please see the data sheet for Low Foam Swift.

INSTRUCTIONS:

Swift may be diluted with up to 50 parts water according to the amount of dirt or grease contamination and type of surface to be cleaned. Swift should be applied by sprayer, mop or cloth. Allow to penetrate and emulsify dirt and grease before machine scrubbing or wiping clean. Remove all resultant residues, rinse with clear water and allow surface to dry. Where a strong solution of Swift is used for floor cleaning, or for floors cleaned prior to re-finishing, the floor must be neutralised with Granwax Neutrasol (at same dilution rate as Swift) before final rinse.

RECOMMENDED DILUTIONS:

Motor vehicles, light reflectors, ceramic & glass surfaces, etc:	1 part Swift to 50 parts water
Light floor cleaning, walls & painted woodwork, vinyl & plastic upholstery, venetian blinds, marble, terrazzo, melamine, aluminium, etc:	1 part Swift to 30 parts water
Average floor soilage:	1 part Swift to 20 parts water
Machinery, garage equipment, ventilation fans, removal of non-metallised water based floor polish:	1 part Swift to 9 parts water
Heavily soiled floors, excessively greasy equipment in factories, garages, kitchens, etc:	1 part Swift to 4 parts water

STORAGE: Store in a cool, dry place. Protect from frost. Keep out of the reach of children.

HEALTH AND SAFETY: For full health and safety information, please refer to the product Material Safety Data Sheet.

The information provided herein is correct to the best of our knowledge. No liability for any errors or omissions is accepted. You should satisfy yourself by appropriate trials that the product is suitable for the intended use. Granwax Products Ltd can accept no responsibility for any loss as a result of any person placing reliance on any material contained herein.
