

Wood Floor Dyes

A solvent based wood dye formulated to offer exceptional depth of colour on all interior wood surfaces. Granwax Wood Floor Dyes are quick drying and easy to apply, usable with all water and white spirit borne Granwax finishes.* (Not suitable for use with Granguard or Granstone)

White

Light Oak

Medium Oak

Dark Oak

Jacobean Oak

Teak

Rich Mahogany

Ebony

PREPARATION

Sand the floor in stages following standard procedure, finishing on a fine (120 grit) grade. Always sand the floor in the direction of the grain pattern where possible, ensuring the removal of any blemishes and glue residue prior to the application of Granwax Wood Floor Dyes. Take care to remove all traces of sanding dust and test the chosen Granwax Wood Floor Dye on a similar substrate to verify colour/shade.

Mix the contents well and always check the shade before application.

APPLICATION

Take a clean, lint free cotton cloth or sponge and apply in the direction of the wood grain where possible. Take care to remove any excess stain immediately with a separate, clean absorbent cloth, again following the direction of the grain pattern. To obtain a uniform colour, always wipe evenly, blending the stain over the whole surface by exerting a degree of pressure when applying by hand. Leave to dry and do not sand between coats.

The application of additional coats will deepen the existing colour/shade.

- Application: Cloth, brush, sponge
- Dry time: 10—15 minutes at room temperature
- Overcoat time: Approximately 1 hour
- Coverage: 16m² per litre (depending on substrate and method of application)
- Thinners: Granwax Polysolve
- Recommended for use on: Wood floors, but may also be used on other wood products, such as furniture, doors and panelling
- Packaging: 5 litre containers

** Always trial before use to satisfy yourself of acceptable results. Be aware that variations in wood and finishing techniques will alter final appearance. Do not mix dyes with finishes.*
